

PARTNER

WITH SOLE FINANCIAL

SOLE has been partnering with payroll companies and PEO's since 2004 to extend a paycard program to companies of all sizes.

Our partnership model thrives out of our dedication to cardholder education and unmatched client support.

PARTNERS

We've become experts on paycards so our partners don't have to. Partners simply identify clients or prospects that could benefit from paycards, make an introduction, and we take it from there.

CLIENTS

Most clients can get their new paycard program up and running in about a week. They can also save \$406 per employee each year by switching from paper checks to direct deposit.^A

CARDHOLDERS

We understand the unbanked demographic better than anyone. That's why we built our paycard program around financial education and empowerment.

WHY PAYCARDS?

Paycards have effectively made paper checks obsolete, allowing employers to pay all of their employees via direct deposit.

A quality paycard offering has become critical for payroll companies and PEO's in their pursuit of landing new business and satisfying existing clients.

Opportunity

Approximately \$250 billion to \$300 billion is distributed annually via paper check to the unbanked population.

Projection

The number of paycards will increase from 5.9 million in 2017 to 8.4 million in 2022.
